Cost Reduction Seminar-Energy

(Half Day Cost Reduction Seminar)

A longer term approach to a big problem. Learn how to reduce your energy demand, lower your bottom line and your carbon footprint. Every Business can save money by implementing energy efficiencies. Otherwise you may only achieve minimal outcomes. This is a half-day Seminar for Government, Corporate or individuals wanting to understand how to become energy efficient. It is the lead into our course on Energy Auditing.

Included in the Seminar costs is a review of your electrical energy bill.
